Eco-Prime Emerald Lawn Fertiliser is a complete mineral NPK biological fertiliser impregnated with beneficial biology. Designed to enhance lawn surfaces by providing balanced nutrition and strong root growth.

Colour is enriched in the leaf surface by increasing photosynthesis through trace balance and controlled macro release.

Root stimulation is achieved through a combination of natural ingredients such as mineral based NPK, Humates and beneficial biology including Mycohrrizal fungi.

Commercial Turf	350Kg/Ha	=57Kg/Ha Nitrogen
	250Kg/Ha	=41Kg/Ha Nitrogen
Home Lawn	30g/sqm	

Though not likely to burn grass, Fertiliser should be washed in at first opportunity. Safe for use on soft leaf buffalo lawns. Spreading is recommended at 5m spacing's. Fertiliser may burn broad leaf plants such as clover, avoid leaving on leaf to prevent broad leaf burn.
